Netceed

The future of communications, delivered today.

Learn more at **netceed.com**

Overview

Netceed is a global leader and one-stop shop with a comprehensive portfolio of network core to service delivery edge materials, complete end-to-end solutions, and value-added services with unmatched telecom and broadband industry expertise. Leveraging our intelligent distribution systems, state-of-the-art supply chain solutions, and customized products and services, we're redefining what a materials distributor and value-added services provider can be and do for our customers.

1 million+ sq ft of warehousing and storage capacity across the country

600,000+ network product deliveries annually

90,000+ SKUs of network materials

8 million+ miles of fiber distributed annually

nearly 1,500 manufacturing and supply partners

1,800+ experienced and dedicated team members

We're dedicated to shaping the future of communication networks across the globe, and our footprint includes more than 80 locations across 19 countries. With a 30-year legacy of succeeding together with our customers and partners, we connect the right mix of people, products, partnerships, and processes to consistently deliver on our commitment to excellent service and unsurpassed value.

Our certified engineers and technicians, and experienced management and staff can help you plan, deploy, and maintain your network, as well as navigate through industry changes, opportunities for growth, and technological advances, while our expansive range of logistics services provides worry-free supply chain management.

- Network Advisory, Design, Planning
- Multi-Vendor Custom Configurations
- Pre-Wired Enclosures & Cabinets
- Custom Network Deployment Kits
- Pre-Configured Equipment

- Pre-Cut Fiber Cable
- Customer Asset Management Program
- Installation Services
- Managed Services
- Maintenance Services
