

**Your partner for speed, scale,
and supply chain visibility.**

Accelerate data center operations with local stock, global reach, and custom logistics for faster execution. Our scalable, vendor-neutral solutions and real-time visibility tools help optimize performance, control costs, and keep projects on schedule.

Data center distribution delivered globally

Netceed is your premier partner and one-stop shop in distribution excellence. With 80 locations across 19 countries, we truly are a global company providing scale, expertise and experience into the data center industry.

With knowledge built up over 30 years, we are your trusted partner across all areas of your business, through design, implementation, stockholding, and logistics. With our network, we are able to support your requirements, not only in the US, but across the globe.

Data Center Solutions Portfolio

- Racks, Cabinets, and Enclosures
- Cabling and Connectivity
- Liquid Cooling and Climate Control
- Data Center Infrastructure Management
- Networking Equipment
- Optical Transport
- Outside Plant Solutions
- BMS, Access, and Physical Security
- Power Solutions
- Storage, Compute, Virtualization
- Test Equipment and Splicing
- Tools and Accessories
- Transceivers
- Security and Firewall
- Supply Chain & Professional Services

Our Trusted Partners

Core to Edge Product Portfolio

Netceed collaborates closely with major manufacturers across various categories, enabling you to source all of your build needs from one supplier. We have achieved Elite partner status with companies such as CommScope, Corning, and Prysmian. This guarantees the best pricing, technical support, and ample stock availability when required.

Sourcing & Procurement

With our huge network of buyers with far reaching relationships, coupled with our incredible purchasing power, we are able to procure products not currently in our portfolio and manage the complete supply chain for you on these items.

Forecasting & Inventory Management

Our advanced systems and highly experienced team ensure accurate management of stock levels throughout the business, guaranteeing that we always have what you need, when you need it.

Warehousing & Storage

Our warehouse space totals over 1 million square feet, housing millions worth of products available for immediate delivery anywhere in the US. Our system is designed to accommodate any last-minute changes to your plans.

Logistics & Tracking

Tracking information for all orderes placed with us is available via our website. You can see the location of your product at any time. We also have a dedicated team of customer service experts who will ensure that any courier issues are handled quickly and with minimum disruption to your project.

Dedicated Program Management Team

Our team will work closely with you to manage your large projects, ensuring that you have the right products, delivered to the right location, at the right time. Regular update calls with you ensure that any changes are communicated and actioned efficiently.

Netceed Professional Services

Our certified engineers and technicians help you plan, deploy, and maintain your network, while our broad service offering ensures worry-free supply chain management. Backed by deep expertise and problem-solving capability, we deliver competitive, technology-driven solutions tailored to your needs.

1 Scoping

Kickstart your build with expert scoping and tailored product solutions from our partner ecosystem.

2 Solutioning

Collaborate on custom solutions, aligning products, distribution centers, and program management for seamless execution.

3 Project Mapping

Ensure timely delivery with precise forecasting, global sourcing, and optimized logistics.

4 Deployment

Speed up deployment with end-to-end engineering: cable cutting, kitting, rack integration, and tracking.

5 Support & Services

Optimize performance with ongoing support, real-time reporting, and lifecycle management through custom dashboards.

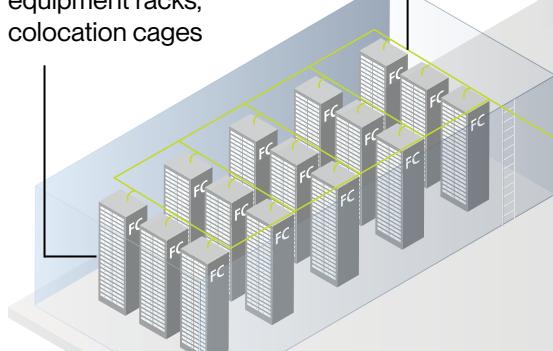

Delivering end-to-end data center connectivity solutions

Networking and DCI Optical Transport

Spine leaf switching, routing, coherent transceivers, network management, timing and synchronization, open line systems, open terminals

Racks, Cabinets, and Enclosures

Cabinets, enclosures, equipment racks, colocation cages

Tools & Accessories

Hand and power tools, safety equipment, splicing, cleaning, identification markers, tags

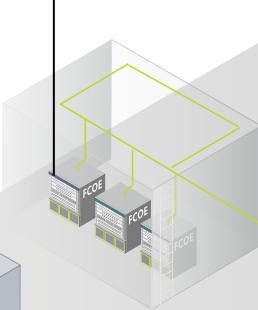

Test Equipment & Splicing

Test, network monitoring, fiber splicing, data center interconnect monitor, fiber certification

Power Solutions and DCIM

Transformers, switchgear, generators, UPS, smart rack PDUs, busway, rack busbar, rack transfer switch, circuit breaker panel, power management, grounding, inverters, batteries (lithium ion and VRLA), rectifiers, environmental monitoring

BMS, Access, Security

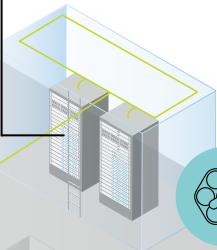

Storage, Compute, and Virtualization

Liquid Cooling and Climate Control

Hot and cold aisle containment systems, cabinet exhaust systems, filler panels, fan-assisted doors, CRAC units, thermal management, in-row cooling

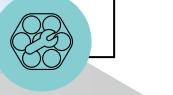

Cabling and Connectivity

Cable management, copper and fiber cable, assemblies, connectors, patch panels, raceways, relay racks

Outside Plant

High-fiber count ribbon, duct, vault, damage prevention, enclosures

Meet Me Room

Supply Chain & Professional Services

Design, installation, configuration, test and turn-up, commissioning, training, maintenance

Security and Firewall

Power Solutions and DCIM

Safeguard and optimize your data center with our power and infrastructure management solutions. From integrated UPS systems, PDUs, and AC/DC distribution tools to comprehensive DCIM capabilities, our offerings deliver reliable power protection, real-time monitoring, asset tracking, and environmental controls. Gain full visibility and control to ensure operational efficiency and minimize downtime across your entire infrastructure.

- ABB / OmniOn Power
- Amphenol Network Solutions
- APC by Schneider
- CE+T Power
- Cyber Power
- Delta / Eltek Energy
- Eaton / Tripp Lite
- Erico
- Hubbell Power
- Inova DC
- Legrand
- Modius
- Narada
- Newmar Power
- Rittal
- Siemens
- Vertiv

Liquid Cooling and Climate Control

Ensure efficient cooling for your critical infrastructure with our hot and cold aisle containment systems and direct chip cooling. Our liquid cooling solution reduces OPEX by up to 40% and would allow your infrastructure to run more efficiently with lower PUE.

- APC by Schneider
- Inova DC
- Rittal
- SuperMicro
- Vertiv / Great Lakes
- ZutaCore / CPI

Storage, Compute, and Virtualization

Scale and secure your operations with our server and storage solutions. We offer high-performance server hardware and scalable storage systems, enabling efficient data management, backup, and disaster recovery strategies.

- Dell
- SuperMicro
- HPE

Networking and DCI Optical Transport

Equip your data center with top-tier networking products, including spine/leaf switches, routers, firewalls, and wireless systems. Our innovative active solutions best fit your AI computing, cryptocurrency, and cloud architectures.

- 1Finity
- A10 Networks
- Adtran
- Arista
- Ciena
- Coherent Corp
- Dell
- Fortinet
- Huber + Suhner
- HPE
- Juniper Networks
- Molex
- Netceed
- Nokia
- Oscilloquartz

Security and Firewall

Enhance your data center security with our virtualization and firewall solutions. Our offerings include software-defined infrastructure, virtualized security, and next-gen firewalls to ensure efficient resource utilization and protection against cyber threats.

- A10 Networks
- Corero
- Fortinet
- Huber + Suhner
- Juniper Networks
- Nutanix
- Palo Alto
- Veeam
- VMware

Transceivers

Maximize data center connectivity with our high-performance transceiver solutions. Designed for seamless integration, our optical transceivers support high-speed data transfer across various fiber and copper networks, meeting the demands of evolving bandwidth requirements.

- Coherent Corp
- Enet
- Molex
- Netceed
- ProLabs

Racks, Cabinets, and Enclosures

Netceed offers a comprehensive range of cabinet and racking solutions, tailored for single-tenant and co-location environments. Our customizable products deliver the functionality, accessibility, and environmental control needed to meet any infrastructure requirement.

- Amphenol Network Solutions
- Canovate
- Chatsworth (CPI)
- DDB Unlimited
- Eaton
- Great Lakes
- Inova DC
- Rittal
- Thermo Bond Buildings
- Vericom
- Vertiv

Cabling and Connectivity

Optimize your network performance with our cabling and connectivity solutions. Our high-performance copper and fiber systems support high-density, high-bandwidth data infrastructures, driving down costs while enhancing system reliability.

- AFL
- Chatsworth (CPI)
- CommScope
- Corning
- Huber + Suhner
- Lynn Broadband
- Molex
- Panduit
- Prysmian
- Sumitomo Electric
- Vericom
- Wirewerks

Tools and Accessories

Netceed provides a complete range of hardware tools to meet the demands of any data center project. Our offerings include cable pullers, wire strippers, crimpers, ladders, splicing kits, safety harnesses, and more. Whether you're cutting, terminating, or testing fiber and copper cabling, we offer the precise tools needed for installation, maintenance, and upgrades.

- U-Teck

Test Equipment and Splicing

Ensure network integrity with our comprehensive testing tools. We provide copper and fiber test equipment for installation, certification, and troubleshooting, ensuring seamless connectivity and optimal performance.

- Adtran
- AFL
- EXFO
- Fluke
- Huber + Suhner
- INNO Instrument
- Netceed
- Sumitomo
- VIAVI

BMS, Access, and Physical Security

Protect your data center with comprehensive physical security solutions. Our offerings include security cameras, access control systems, and perimeter security measures to safeguard against unauthorized access and ensure real-time monitoring.

- Amphenol Network Solutions
- APC by Schneider
- Atkore
- Chatsworth (CPI)
- Motorola
- Rittal
- Ubiquiti
- Vertiv / Great Lakes

At Netceed, we are more than just a distributor — we are your partner in success, offering the products, expertise, and services to empower your data center operations. From sourcing and logistics to professional services and beyond, we simplify complexity and deliver tailored solutions to meet your unique needs.

Let our team of knowledgeable experts provide the support you need to achieve your goals. Contact us today and experience the Netceed difference!

Get in touch

Our team of experts look forward to helping you find the right solution for your network.
